

Grundy County Speedway – March 10, 2021

A very comprehensive tire test was completed today for the Grundy County Speedway Late Model Division. A thorough testing plan was utilized to obtain solid engineering data employed in a mathematical diagram using Cartesian coordinates was utilized for quantitative and qualitative analysis of the test data along with detailed driver input for various Hoosier Racing Tire configurations. A comprehensive analysis of all specific engineering data and driver responses was completed with the Hoosier Tire engineers who were onsite for today's test.

The Grundy County Speedway would like to make the announcement that the Late Model Division will utilize the Hoosier 3035 left side and the Hoosier 3045 right side tires for the 2021 racing season.

The Grundy County Speedway would like to thank all the Late Model teams and drivers who helped make this test happen on a very short notice. A very special thank you to Hoosier Tire for all of their assistance with the testing today.

Hoosier Tires are the official tire of the Grundy County Speedway.
